DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Limberg (US 6,768, 517) et al. teach a computer readable method that broadcasts a signal which consists of encoding the digital data as codewords (Limberg: Column 9, lines 50-63, See also Figure 4) and using a multiplexer to replace data segments within the DTV signal with the codewords (Limberg: Column 9, line 64 to Column 10, line 8, See also Figure 4). This DTV signal is shown to have a transmitter capable to transmitting the DTV signal (Limberg: Column 10, lines 36-43, See also Figure 4). Limberg et al. also teach a receiver able to recover the digital data from the selected data segments (Limberg: Column 15, line 54 to Column 16, line 34, See also Figures 5 and 6). However, Limberg fails to teach the specifics of the codeword as claimed. A further search was conducted which failed to yield any prior art. Therefore, the prior art fails to teach or render obvious these limitations taken within the others in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
